Tennessee Log Homes

To whom it may concern:

Brian Dalmaso of B.M.K. Contracting was hired to be the general contractor on a garage and breezeway addition to my home at the end of last year. Brian was chosen over three other contractors because of his attention to detail and the quality of his work.

Throughout the project and the numerous roadblocks that are typically presented to a builder working on anything in a small town, Brian was able to resolve the problems to everyone satisfaction enabling the project to move forward. Brian often made suggestions for project improvements or cost reductions during the project that enhanced the quality and look beyond my expectations.

I would recommend Brian as a general contractor for any conceivable construction project, large or small. The quality of his work and his business sense allow the owner to be "worry-free" for the duration of the project.

Please contact me if you have any questions regarding my recommendation.

Sincerely,

Steven Niemi
